IPL PHOTOFACIAL

An IPL photofacial uses pulses of light energy to target sun damage, redness, brown spots, and uneven skin tone. It's a gentle treatment that leaves skin clearer, brighter, and more even.

Pricing

Starts at $249 per session.
Free consultation and package discounts available.

Results

What to Expect

Sessions take about 30 minutes with minimal discomfort. You may notice temporary redness or darkening of spots before they naturally fade. Avoid sun exposure and retinol use before treatment. Most patients resume normal activities the same day, with best results after 3 sessions.

Schedule your free consultation or treatment at myTrimMD.com or by calling our office at 317-548-4666.
